

The Wellness Center is launching a peer education program, and we're actively seeking motivated students (graduate and undergraduate) to join! Peer educators present to student groups about relevant health topics such as alcohol and other drug use, sexual health, and stress management.

This is a great opportunity for students with an interest in promoting healthy choices within the EMU student body, strengthening group presentation skills, and building connections on campus. The program is approved for LBC credit (Group 2, Option E).
