

SECTION #5 – IMMUNIZATION & PHYSICAL EXAM FORM

Immunizations are required by the EMU CP to complete the Supervised Practice Experiences. You must submit proof you have received at least the first dose of all required series vaccinations. Documentation must come directly from your healthcare provider. **Retain originals and include copies in the application notebook.** You will need the originals to upload online if accepted into the CP. You must have AT LEAST ONE DOSE of the series vaccination listed below to apply to the program. If accepted, you will have to complete the series vaccinations and we recommend continuing the dose schedule for all series vaccines, while you await word of acceptance to the program. Vaccination requirements are based on current CDC guidelines and Supervised Practice site guidelines. For the recommended dosage schedule from the CDC, please go to:

<https://www.cdc.gov/vaccines/schedules/downloads/adult/adult-combined-schedule.pdf>

Healthcare sites will not accept a statement that you had any of these diseases as a child, as proof of immunity. Simply noting that you had measles, mumps, etc. as a child with estimated dates and/or noting that you are immune, is not accepted. Alternatively, you must have a positive blood titer test showing proof of immunity. This titer must include a numeric result and reference range, simply stating “negative/positive” is not acceptable.

REQUIRED VACCINES (or blood titer proof of positive immunity):

Hepatitis A (2 doses)

Hepatitis B (3 doses)

Varicella - chicken pox (2 doses)

DTP (Diphtheria, Tetanus & Pertussis) (1 dose Tdap + booster every 10 years) MMR (Measles, Mumps, Rubella) (2 doses)

HEALTH INSURANCE REQUIREMENTS

The program requires that all CP students carry personal health insurance. This is mandatory, due to the legal affiliation agreements completed with Supervised Practice Experience sites. Students must provide proof of health insurance if they are accepted into the CP. This must be provided prior to starting the first year and again prior to starting the second year in the CP. Clear electronic scans of both sides of your insurance card will suffice as proof. If accepted into our program, you will receive instructions from the Clinical Coordinator on submitting this proof.

CERTIFIED BACKGROUND CHECK AND DRUG SCREEN

Once admitted to the program, all CP students must register online and pay for a Certified Background Check, 10-panel Drug Screen and Document Manager. Total cost is \$147. If the 7- year residency search (part of the Background Check) includes a period of residency in a foreign country, an additional cost of \$105 may be required. These fees are subject to change. Results for a foreign country residency search may take three weeks or more to complete. Please be aware that some Supervised Practice Experience sites may require additional background checks, drug screening and fingerprinting at various points in the CP. These expenses are often the student's responsibility.
